

Instruction for 20 x 40 Party Canopy

1. Stretch canopy over area to be covered keeping the edges taunt and straight (see fig. 1)
2. Drive stakes with hook side away from tent – approx. 5 feet from edge of tent
3. Form a small loop at the end of the rope, using the slider and put over stake so the rope is caught by the stake hook
4. Assemble side poles and center poles
 - A. Side pole – 1 top and 1 bottom
 - A. Center pole – 1 top and 2 bottom
5. Insert the pins of the side poles through the grommets and rings around the perimeter of the tents and erect side pole at about 45 degrees. Adjust tension at slider if needed.
6. Erect center poles
7. Erect side pole to a more vertical positions tightening sliders as needed
8. Secure rope attached to the center position by tying to center pole or
9. Sidewalls may be attached to the rope around the perimeter.
