

About Our Battery Operated Candles

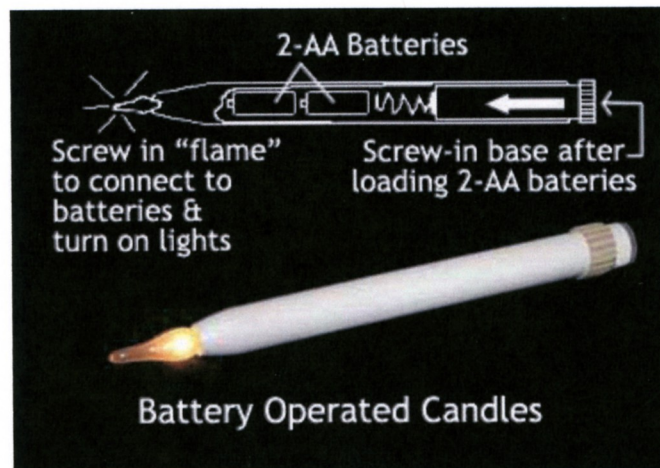

*The essence of candlelight without
the mess or danger of flame!*

- A perfect resemblance to real candles
- Up to 8 hours of candle light in 2-AA Carbon Zinc batteries provided
- No candle wax to clean up- battery operated candles don't drip, wilt, or burn down
- Fit all the candelabras we rent
- Perfect for areas and events where regular candles won't stay lit

When the occasion calls for the elegance of candlelight, but the use of an open flame is restricted, Battery operated candles have the beauty and elegance of wax burning candles and capture the accent of the bulb.

Instructions:

1. Install batteries into aluminum outer shell and insert inner cartridge with contact.
2. Install supplied bulb into the top of the candle (screw/unscrew bulb for on-off operation)
3. When finished return all bulbs to their original package and leave batteries in candle.

Notice:

There will be a charge for any bulbs not returned, good or bad.

2 AA Batteries supplied.
